About I.D.

I.D.

I.D. was America's premier magazine about contemporary product design and material culture from 1954 through 2009.

We are thrilled to resurrect the I.D. brand in the form of a curated gallery of some of the latest and greatest industrial and product design work from around the world. F+W Media has partnered with Behance to reboot I.D. as a platform for exposure, discussion, and opportunity for the world's leading designers in industrial and product design.
